Draft plan for our new health and social care strategy

2016 – 2019

The Scottish Parliament has made a new law that says that health and social care services have to work together so that people have better and happier lives.

It is important that everyone has the chance to share their views on what health and social care should look like in the future

Please help us to make the best Strategic Plan by having your say.

The Consultation Document for the Strategic Plan can be found at
